Re: School Committee Application

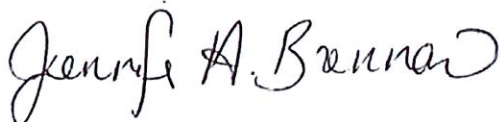

Dear Mr. Grader and Ms. Fox,

In response to the Select Board and School Committee's notice, I write to express my interest in the open interim School Committee position. As detailed in my enclosed resume, I have been an active member of various school-related organizations and stay abreast of community-based concerns related to the schools. The opportunity to serve on the School Committee for the rest of the open term would provide a greater opportunity to serve the students and the community.

I have been a resident of Marblehead for approximately 20 years, and am the parent of two children, one of whom is a senior at Marblehead High School. During my children's tenure in the Marblehead school system, I have been a board member of PCOs at multiple schools and engaged in the approval process for construction of two elementary schools. I also actively follow committee meetings and town discussions related to the schools. As my time as a parent in the Marblehead school system draws to a close, I believe I am well positioned to represent community concerns to school administrators, to communicate the needs of the school system to Marblehead residents, and to partake in committee discussions about the goals and objectives for the district.

Thank you for your consideration.

Sincerely yours,

Jennifer A. Brennan
